

# ADELODUN OLAYINKA FARUQ

**ADDRESS:** Ikorodu Lagos.

**Mobile No:** 08145675685

**Email:** [adelodunfaruq@gmail.com](mailto:adelodunfaruq@gmail.com)

## CAREER OBJECTIVES

I am a skillful, self-motivated, and diligent electrical Technologist with over four years' experience in energy production and distribution. Aiming to render quality service in a goal working environment that enhances room for career advancement and development.

## WORK EXPERIENCE

**Organization:** Egbin Power PLC, Ijede, Ikorodu, Lagos

**01/08/2018 till date**

(Division of Sahara Power Group)

**Position:** Steam Turbine Operator (Steam Power Central Control Room Operation)

### Achievement:

- Operation of 220 MW Steam Turbine Generator and unit Auxiliaries on both local and remote operation using Ovation Distributed Control System (DSC).
- Maintained the maximum unit availability of 220 MW in accordance with the 2021 corporate sustainability goal.
- Achieved 100% expected efficiency through daily plant data collection for proper plant performance and condition monitoring.
- Participated in the type A inspection on Unit-6 which restored the unit to 180 MW availability as against 130 MW in 2020.
- Participated in the Unit-6 DCS installation & commissioning, and Installation of Operator Training Simulator. (by Emerson FZE, UAE)
- Achieved zero lost time injury of personnel and equipment damage on field through strict compliance with safety policies.
- Strict compliance to all safety guidelines such as ensuring adequate use of PPE, tag out and lock out of equipment scheduled for maintenance and issuance of work permit and station guarantee to the maintenance team.
- Ensuring standard Plant and auxiliaries' parameters are met for environmental sustainability.
- Responded to fire emergencies within and outside of the organization.

**Organization:** Davelaw Technology, Ilorin

**2016 – 2017**

**Position:** Team Leader

### Achievement:

- Participated in Installation of 10 KVA 120 V inverter and 20 X 200 W solar panels
- Lead a team to install a 2.5 KVA 24 V inverter.
- Constructed a locally made 1.5 KVA 12 V inverter.

## **EDUCATIONAL BACKGROUND AND QUALIFICATION OBTAINED**

- **Lagos State University of Science and Technology formerly Lagos State Polytechnic** (HND Electrical Electronics Engineering) 2021, Lower Credit.
- **Kwara State Polytechnic, Ilorin** (ND Electrical Electronics Engineering) 2015, Upper Credit
- **Ansarul Islam Secondary School, Ilorin** (Secondary School Certificate Examination) 2013

## **OTHER CERTIFICATIONS**

- Basic Fire Fighting Certificate (BFFC)
- Enhancing Business Communication Program
- Advanced Fire Fighting Certificate

## **SKILLS**

- Ability to troubleshoot and carryout installation of Solar Panels and Inverters.
- Strong interpersonal skill.
- Good communication skill.
- Leadership skill.
- Creativity.
- Ability to learn fast.
- Good use of Microsoft office
- HTML, CSS & JavaScript
- ReactJs
